

众志成城 超越梦想

Spreadtrum Communications, a promising pre-IPO company, was founded in 2001 by a group of successful entrepreneurs. It is now a leading fabless semiconductor company developing and marketing innovative digital wireless communications products. The company provides 2G/2.5G and 3G baseband chipsets, protocol stack software and application software, total solution for wireless equipment manufacturers, mobile terminal vendors and semiconductor companies. Spreadtrum Communications is currently experiencing high-speed growth in both its revenue and size, and this rapid growth is becoming a legend among Silicon Valley start-ups. Spreadtrum Communications is expanding its Silicon Valley core R&D center and we sincerely invite you, the most talented minds, to share our dream and success.

We offer competitive compensation package (stock option, medical, dental & life insurance, FSA with employer contribution, 401k, holidays, vacations, etc.).

Job Title: Analog/Mixed-Signal IC Design Manager
Job Location: Sunnyvale, California
Position Type: Full-time Employee

Responsibilities:

Design high speed, high precision data converters (A/D, D/A), low jitter PLL, IO/memory, SerDes and power management circuit for cellular phone; be responsible for analog/mixed-signal team management and project leading.

Requirements:

- At least 6 years hands-on experience in analog/mixed-signal circuit design with proven track record.
- Familiar with IC design tools such as schematic capture, hspice simulation, layout, physical verification and extraction parasitic and evaluate their impact on the design.
- Solid understanding of various analog issues in complicate SOC environment.
- Team leading/management experiences with excellent communication and people skills.
- M.S. or above Degree in Electrical Engineering.
- International travel is expected.

We are an Equal Opportunity Employer.
